

IN THE LAST CENTURY, IRON AND STEEL
MADE NATIONS STRONG.

**We design and build more of the world's
most powerful supercomputers than
any other company in the world.**
So we're proud to be an important part of
America's national security advantage.

IN THIS CENTURY, IT WILL BE QUADRILLIONS
OF COMPUTATIONS PER SECOND.

The HPE SGI 8600:
The world's most advanced
supercomputer.

A National Asset In Supercomputing
